THE BEST FAMILY MEDICINE
She Has Ever Known. Words of Praise from a New York Lady for
AYER'S PILLS

"I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equaled.

When my friends ask me what is the best remedy for disorders of the stomach, liver, or bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent la grippe, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best all-round family medicine I have ever known."—Mrs. MAY JOHNSON, 368 Rider Avenue, New York City.

BUT THE MAN EATING SHARK TOOK $45,000 OF THE BAIT.

The Ex-Diver's Story of an Adventure In the "Great Days"—Silence Smeared Itself All Over the Veranda at the Completion of the Yarn.

"I suppose," quoth James T. Gaulin of Winchester, Mass., who was sitting on the hotel veranda, "that I had the honor of killing the most valuable fish that ever swam the seas. I did it single handed too. I aver that this fish was worth more at the time of its death than the finest sperm whale that was ever harpooned, although we should really leave whales out of the question when speaking of fish. It was 30 years ago, and I was young and foolish enough to be a deep sea diver. Our diving schooner and crew had been sent to Cuba to try to recover some stuff from a Spanish boat that had foundered off the coast of Cuba, just where I don't now recollect. It was quite a long trip for us, and as the employment of a diving outfit was an expensive thing in those days the boys knew that there must be something pretty valuable in the hold of the wreck. I was quite close to our skipper, and he told me that there were several boxes of gold coin in the wreck. On our arrival at the port near where the wreck lay in 30 feet of water the agent of the owners of the sunken schooner told us something more surprising. It was that the gold had not been stowed in boxes in the cabin, as was usual, but for some reason had been bagged and placed in the hold, being billed as copper washers. This was probably a scheme to avoid any chance of the spirit of cupidity arising in the crew, for the treasure was very great.

"As the confidential man, I was selected to go down first and find the money bags, attach lines to them and have them taken out before the other divers should proceed with the work of taking out the other freight that the water has not harmed. I was soon in the hold and was surprised to find that the bags were only a little distance from the hole in the side that had caused the schooner to founder. I had been told that there would be 12 bags, but I could lay my hands on but 11 of them. Finally I spied a torn bag lying near the hole in the hull, and on picking it up discovered that it contained a few gold coins. I decided that the heavy triple sacking had been torn open in some way or other when the schooner sank. I fastened lines about the 11 bags that were intact and had them hoisted, afterward going up for air, for our apparatus was no very good.

"In a few minutes I returned to the hold to search for the scattered coins. Very few of them were in sight. It occurred to me that they might have been washed outside the boat, judging from the position of the wreck and the fact that the hold was far down toward the ship's bottom. I was about to crawl out of the hole when I remembered that it might hazard the air pipe, so I was pulled up and let down again over the vessel's side. I was disappointed not to find any indication of the gold near the hole in the schooner, but set to work digging resolutely in the sand. I had gone but a foot down when I struck the gold pieces all in a lump. I picked out a great handful and turned the light on them, for I was a lover of gold then, even though it did not belong to me.

"Just then I saw something that made the rubber helmet rise from my head. It was a man eating shark. I hadn't thought of one in so long that I had neglected to bring my knife. It was rushing at me. The stupid creature never stopped to consider that with a rubber and lead dressing a diver makes a poor lunch. I was kneeling beside the gold. At the shark's onslaught I naturally hung to the handful of gold as though to use it as a weapon. He turned on his side, opening his horrible mouth. A feeling of grim humor had come over me. The cruel goldbugs had sent me down here to be devoured, after saving thousands of dollars for them. I would be a spendthrift at the last. So with all my force I flung the heavy handful of coin into the yawning mouth.

"The shark must have thought it was a part of me, for he snapped his jaws over the golden morsel. I am satisfied that he broke some teeth. He swam back a little, and then rushed at me again. I had no weapon but the gold, so again I flung into the hideous maw enough to buy me a home in New England. I saw him snap and swallow it. Again and again was the attack repeated, and as often did I hurl gold into the shark's throat. Pretty soon he became dizzy, as it were, for the gold had unbalanced him, settling in the forward part of his body. Then he writhed in agony, and I had to keep dodging his flurry. Then, with one terrible shudder, he sank to the bottom, weighted down by the gold. I tied a line about him and then gave the signal to be pulled up. Then I helped hoist the shark. We cut him open. Gentlemen, you must take the word of an ex-diver that there was $45,000 in him. Gold had killed him."

Silence smeared itself all over the veranda. The pale moon slid behind a cloud. The amphitheater organ slowly wove a weird chunk of melody. The chimes began to ring. "Those were great days," said Mr. Gaulin sadly.—Buffalo Express.

The Lowell Family.

The Lowells hold an honored place in the local history of New England. One member of the family introduced cotton spinning into the United States, and for him the town of Lowell is named. Another left money to found in Boston the course of lectures known as the Lowell institute. The most famous of them all was James Russell Lowell, born in 1819 at Cambridge, Mass., on Feb. 22, also the birthday of the most distinguished of all Americans.—"James Russell Lowell," by Brander Matthews, in St. Nicholas.

GOLD EATING WATER

SPARKLING LIQUID CHARGED WITH CYANIDE OF POTASSIUM.

Millions In the Yellow Metal Recovered by Percolation—A Simple but Interesting Process, With Results Which Are Nothing Less Than Marvelous.

It is not generally known, even in California, that millions of dollars in glittering gold are annually taken from rude heaps of base looking quartz by the gentle flowing of crystal water over huge piles of broken rocks that contain the precious metal, but such is the fact.

"The process of robbing the earth of its gold has now been reduced to such a fine point," said Professor Price, "that the gentle flowing of water over the ore gleans it of its golden treasures, and this works well in cases where the old chloride and other methods are not so useful."

But the water of which Professor Price spoke is not so pure as it looks, though the eye could never distinguish it from that which is dipped by the old oaken bucket from a well in the deep tangled wildwood. The water used by miners in bringing gold from piles of mineral bearing quartz is charged with a simple chemical which has the potency to dissolve gold and hold it in solution. In truth, the sparkling liquid which flows over hundreds of tons of quartz, trickles through the mines and seeks its level, laden with gold, is charged with a deadly poison, cyanide of potassium, a drug which ferrets out the minutest particles of the yellow metal, dissolves them and brings the precious burden to the vats for conversion into refined gold again.

The cyanide process is as noiseless and unerring as the laws of gravitation, doing its work as quietly as "the majestic dance of the hours," unhindered by darkness or weather, by disasters of field or flood.

The state mining bureau of California was one of the first in the United States to investigate the merits of the cyanide process, and since the earliest investigations the method has found extensive application. It is so interesting that its results are nothing less than marvelous. This method of extracting both gold and silver from ores is based on the fact that even a very weak solution of cyanide of potassium dissolves gold and silver, forming respectively "auro-potassic cyanide" and "argento-potassic cyanide," in the language of the chemists.

This interesting process consists of treating the ores with a weak solution of potassium cyanide, usually by allowing the solution to percolate through the ore, or by agitating a mixture of the ore and solution. When this part of the operation is completed, the solution is separated from the solid material, and the gold and silver are precipitated in a metallic form. The process is modern in its application, though it has long been known that cyanide of potassium would "eat gold." During the last five years, however, the process has been introduced into almost every goldfield in California and elsewhere, and more than $20,000,000 have been recovered by the gentle flowing of waters charged with the magical chemical over heaps of ore. Aside from the thoroughness of the permeating water method, its economy is a marked feature in mining. It is in great favor with the gold mining companies of New Zealand and at Johannesburg, Africa, as well as in California.

One of the most advantageous features of the cyanide method is that it can be applied to many gold and silver ores generally called "rebellious" or "refractory." The rebellious ore is placed in a vat for percolation, and the solution is run preferably from the bottom by a pipe, rising slowly through the ore. The solution containing gold is carried through precipitating appliances into the final reservoir, where, robbed of its wealth of metal, it may be repumped into ore vats and again used for searching out the coveted metal.

One of the curious things about the solution is that a total percentage not stronger than an eighth of 1 per cent will carry away the gold almost as well as fluid of greater strength.

Precipitation is effected by the use of fine pieces of zinc, so arranged that when the rich waters flow over them the fine gold clusters in rich deposits over the zinc, for which it has an affinity. The gold which thus deserts the waters of cyanide deposits itself in the form of fine dust on the plates of zinc. The percentage of gold extracted by this process is very large. A large parcel of fine sulphurets from the Utica mines yielded an average of 93.18 per cent of the gold value under the cyanide treatment, and similar results have been experienced elsewhere in the state. The cyanide plants are being extended, and the noiseless process is everywhere becoming popular.—San Francisco Chronicle.

The Nut Diet.

It is evident by many straws noticed in a general reading of periodical and newspaper literature that the next fad of the dietists is to be nuts. All the scientific cooking and health food authorities are urging with increasing persistence the value of this natural food and giving receipts for various nut flours, from which different varieties of bread cake may be made that are nutritious and of medicinal value in certain ailments. And now we learn that "Miss Ellen S. Atkins, a talented London woman who lost a spendid contralto voice four years ago from an attack of grip, has completely recovered her vocal powers through persisting in a fruit and nut diet for a year and a half."—New York Times.

Dry.

In a volume of sermons by a well known but turgid preacher the following lines were found written upon the lyleaf:

If there should be another flood,
For refuge hither fly.
Though all the world should be submerged,
This book would still be dry.

INDEX-TRIBUNE

SONOMA, NOVEMBER 30, 1895.

H. H. GRANICE - - - - - - - - - - - EDITOR

A BACHELOR editor of one of our exchanges, who has evidently tired of his landlady's boarding house, thus bewails his fate: "Backward, turn backward, oh time, in thy flight, feed me on gruel again just for to-night; I am so weary of sole leather steak, petrified doughnuts, vulcanized cake; oysters that sleep in the watery bath; butter as strong as Goliath of Gath; weary of paying for what I can't eat, chewing up rubber and calling it meat. Backward, turn backward, for weary I am! Give me a whack of my grandmother's jam; let me drink milk that has never been skimmed; let me eat butter whose hairs have been trimmed; let me once more have an old fashioned pie, and then I'll be willing to curl up and die."

SANTA ROSA'S missing girl is still the all-absorbing topic for the local newspapers. She has been seen here, there and everywhere almost at the same time. She evidently has possessed herself of bloomers and a pair of seven-league boots, as she is a holy terror in getting over the ground. The bicycle girl ain't in it.

COUNTY NEWS.

GLEANED DURING THE PAST WEEK.

The motion to strike out the amendments to the complaint in the suit of Nordin vs. Nordin, was argued at length before Judge Dougherty in Department 2 last Monday afternoon.

Chicken stealing has been very frequent in the neighborhood of Santa Rosa for some time past. On last Saturday night some thieves made a big raid on the Spreckels-Follis ranch near that place and carried off 400 nice plump birds. The marauders have not yet been caught.

Thus far nothing has been heard from Miss Owens, the young woman who mysteriously disappeared from Santa Rosa last Wednesday morning. Nobody has called for her clothes and satchel at the Eureka lodging house where she remained Tuesday night. It is reported that she has gone to the northern part of the county but nothing authentic has been learned in regard to that.

The first annual and final account of the estate of W. H. Graves was made on Monday, and the decree of distribution ordered. W. H. Graves left an estate valued at nearly three hundred thousand dollars, consisting of real estate, bank stock and cash. At the time of his death Mr. Graves resided near Sonoma. When the provisions of the will were made known, it was found that the bulk of his large estate was left to his two children, F. W. and Daisy M. Gordon, the children of Marie Gordon, to whom he was never married. Legacies were left to his nephews and nieces, but the bulk of the vast estate was left to the two children. The account was rendered by William Alvord, President of the California Bank as executor of the estate of W. H. Graves.

Convicts in the Michigan State Prison are allowed to keep birds, and as a result of this there are fully six hundred feathered songsters in the prison, all owned and cared for by the prisoners. Their carolings in the morning is one of the odd features of life at this institution. It is believed that this and other favors are responsible for the good behavior of the prisoners, as there are fewer outbreaks at Jackson than anywhere else.

Attention.

Prof. Heymann, the eye specialist and optician from Germany, will be at the Union Hotel, Sonoma, beginning Monday, October 7th, for one week, where he will treat, free of charge, all diseases of the eye. The professor will be in Sonoma regularly once a month and the public is kindly asked to consult him before accepting any kind of treatment. The permanent office and residence of the professor is at San Jose, California, where he has earned an enviable reputation as a high skilled oculist. *

When the Chill Mists of the Morning

hang like a pall over the surface of the earth, it will be well for you before venturing into the raw vaporous air, charged, perhaps, with the seeds of malaria or provocative of rheumatic twinges, to take a wineglassful of Hostetter's Stomach Bitters, and thus shield yourself from atmospheric influences threatening to health. If you happen to get snowed, sleeted or rained upon, use the same preventive, and avoid the rheumatism or a dangerous cold. The agreeable warmth infused into the circulation by this genial stomachic, its invigorating and regulating properties commend it to all appreciative of the fact that prevention is better than cure. Use the Bitters for dyspepsia, biliousness, nervousness and kidney trouble, sick headache and debility.

INDEX-TRIBUNE

SONOMA, NOVEMBER 30, 1895.

CITY OFFICIAL PAPER.

METEOROLOGICAL REPORT.

Showing the Condition of the Crops During the Present Month.

Local U. S. Signal Service Observer Robt. Hall says: The farmers of Sonoma Valley have been blessed with ideal Fall weather, with an early rain in September to put the ground in fine condition for plowing and start the feed growing on the mountain side and in the pasture, followed by clear delightful weather throughout the vintage season. Then came gentle showers this month to sprout the grain that has been sown for hay and again put the ground in condition for plowing, after the gale of wind which for two days last week was fresh from the north. Therefore much ground is under good cultivation and sown to hay and grain. Pruning is well in hand. Another blessing was the heavy frost on the mornings of the 24th, 25th and 26th, when the temperature fell to 32 degrees and 35 degrees. This checked the untimely devolopment of fruit buds and destroyed many tiny insect pests that some orchards are infested with. Tuesday night it commenced to rain and ended at 8 o'clock Wednesday morning. Sixty-one hundredths of an inch had fallen, making 1.97 for the month and a total of 3.61 for the season.

In October there were 19 clear days, 6 fair, 5 cloudy and 1 rainy. In November there were 17 clear days, 5 fair, 1 cloudy and 4 rainy.

Y. M. I. Ball.

The seventh annual ball given by the Young Mens' Institute of this place on Thanksgiving eve was well attended and those who were present greatly enjoyed themselves. Union Hall was well lighted and beautifully decorated with tall ferns and red berries. The music was excellent and pleased all the dancers, as did the handsome programmes, which the young men had provided for the convenience of their guests. Many of the ladies wore handsome costumes which added much beauty to the affair. At midnight supper was announced and all marched to the spacious dining room adjoining the hall where an appetizing repast was spread. After ample justice had been meted out to the palatable delicacies dancing was resumed and continued until the twenty-seven dances on the programme had been gone through with, when the musicians played "Home Sweet Home" and all repaired to their respective homes well pleased with the pleasant time they had enjoyed and the orderly manner in which the Institute ball passed off.

The County Treasury Case.

The case of the People against E. F. Woodward as County Treasurer, to compel him to produce all the county funds at his office so that District Attorney Seawell, Auditor Atkinson and Supervisor Hall may count them, was up before Judge Dougherty Tuesday. The respondent demurred to the complaint and arguments were heard on the demurrer Tuesday. District Attorney Seawell and T. J. Geary appeared for the plaintiff while A. G. Burnett and A. B. Ware appeared for the respondent. After argument by counsel the case was submitted to Judge Dougherty, who has not yet rendered an opinion in the case.

Roll of Honor.

The following is the roll of honor of the Sonoma Public School for the month of November:

Sixth Grade — Julie Granice, Tom Lentz, Frieda Wegner, Theo. Bates, Jimmy Dorman.

Fifth Grade—Julius Fochetti, Guy Weems, John Watt, Anita Emparan, Alma Cutter.

Fourth Grade—Rena Small, Willie Castagnassio, Roy Pauli, Jack Knight, Nellie Sullivan.

SUSIE M. SHAW, Teacher.

Local Brevities.

The Sonoma House is a first-class house in every respect. *

Have your children taught dancing by Miss Perry, who personally trains them in all the modern dances. *

Buckingham's Dye for the Whiskers is the best, handiest, safest, surest, cleanest, most economical and satisfactory dye ever invented. It is the gentlemen's favorite.

Wanted—A wide awake man to represent the Massachusetts Mutual Life Ins., Co. in this vicinity. Might be done in connection with other business. Can make very advantageous terms. C. M. T. Parker, Manager, 214 Pine st., San Francisco.

RECKLESS SHOOTING.

An Old Man Wounded in the Head by Stray Shot.

On Tuesday evening last about dusk while John Fothergill, an old gentleman seventy years of age, was standing in the back yard of his cabin near Schocken's quarries, he was shot in the head with a shot gun by a reckless hunter. Five or six shot took effect, but they did not penetrate the skull. The old gentleman fell to the ground, but subsequently recovered from the shock and was assisted into the cabin by his son. He bled profusely from the wounds, which, however, were only superficial, as the shot were extracted from his face and head without the aid of a surgeon. At latest accounts the old gentleman, aside from having a very sore head, was none the worse for his very narrow escape. Had the shot been fired at closer range the wounds would undoubtedly have been mortal. No clew has yet been obtained to the reckless marksman.

Enterprising Merchants.

In this issue we print the new advertisements of several of Sonoma's enterprising merchants.

Duhring's, one of the oldest and most reliable mercantile establishments in Sonoma, announces the constant arrival of holiday novelties of every description. With this and the other stores advertised in these columns to select Christmas gifts from our people would be foolish indeed to visit San Francisco for the purpose of being taken in by the shop-keepers of Market, Kearney and Montgomery streets. To those who have been in the habit of making their holiday purchases in the metropolis we will say try Sonoma this season and leave your money at home.

Frank Weems, the enterprising young merchant in Odd Fellows building, has just laid in a fine selection of holiday goods in the grocery line, and knowing the best means of informing the public of this fact is through these columns his adv. will be found on the second page.

Hale Bros. & Co. of Petaluma, who are the most liberal advertisers in Sonoma county, announce to the people of Sonoma and Vallejo townships, who do their trading in that city, most of whom read the INDEX-TRIBUNE, a grand holiday sale of goods. This firm carries as large a stock and sells even cheaper than the stores of San Francisco. Those people who think all the bargains in their line can be secured in the city ought to give them a trial and be undeceived.

The holiday announcements of other of our merchants will appear next week.

Real Estate Transfer.

Geo. Breitenbach purchased this week from Mrs. Bertie Porter the lot on Napa street adjoining the Sonoma Valley Bank building. The consideration was $1,000. It is Mr. Breitenbach's intention to improve his purchase, which has a frontage of 38 feet on Napa street and is 114 feet in depth.

Trustees of the Home.

Governor Budd has appointed the following gentlemen to fill vacancies on the Board of Trustees of the Home for Feeble Minded at Glen Ellen: T. P. Woodward of San Francisco, Col. J. T. Harrington of Colusa and R. R. Rubenstein. Judge Overton and Mr. Lougee are also members of the Board.

Jacob Gundlach's Estate.

The appraisers of the estate of Jacob Gundlach estimate the value of his estate at $143,025.87. A half interest in the liquor business of J. Gundlach & Co. is appraised at $90,447.82, and the "Rhine farm" of 200 acres, near this place, at $29,600.

Blacksmith Shop to Lease.

In another column will be found an advertisement of a blacksmith shop to lease in Glen Ellen. Two months rent will be given gratis to an industrious and sober blacksmith. The owner guarantees a good living to such a man.

In granting Mrs. Ludeman a divorce Judge Dougherty allowed her the custody of the children and $10 per month alimony.

Glen Ellen Squibs.

J. J. Willson has been quite ill the past week with pneumonia.

The weather has been quite cold of late and the rains have done much good.

Geo. W. Beatty is building a stone residence on his property north of town.

Thanksgiving day was generally observed here and turkeydom was decreased by several majority.

We are sorry to learn that no work will be done on the Steuart Creek road this year.

J. Chauvet is having a number of piles driven along the creek to protect his land and prevent washouts.

Mrs. J. J. Willson has returned to Glen Ellen after a pleasant visit of several weeks in San Francisco.

A singing school will be organized in Native Sons' Hall next Saturday afternoon.

Work has been commenced on the painting of the Congregational Church which will greatly add to the appearance of that part of town.

The entertainment and hop given by the W. P. R's at the Mervyn Hotel last Friday evening was greatly enjoyed by those present.

Several Salvation Army lassies visited this place last Tuesday from Santa Rosa. Quite a number of old sinners purchased copies of the War Cry.

The closing exercises of the Public School were held at the Mervyn Hall last Friday. The attendance was large, many coming from neighboring districts. Kenwood was well represented, the entiré school at that place turning out en masse. The children deserve much praise for the manner in which they performed their various parts. Too much credit cannot be bestowed on their teacher, Miss Julienne Gautier, who evidently has labored oiligently during her stay among us to bring the pupils to such a state of efficiency. The programme as rendered was as follows: Greeting song, school; address of welcome, juveniles; recitation, "A Mortifying Mistake," Ella Monahan; speech, C. Simoni; Delsarte study, eight girls; "The Snow Brigade," John Wright, Leslie Harper, Ray Hendley and James Lang; instrumental duet, J. Gautier and M. Miner; practicing song, Mollie Cramer; song, "List to the Bells," eight girls; recitation, "Smiting the Rock," E. Dennette; instrumental solo, G. Lange and Pearl Allen; dialogue, "The Way She was Raised;" recitation, "Rock of Ages," G. Cramer; instrumental duet, P. Allen and M. Martens; motion song, "The Rainy Day," juveniles; song and tableau, school; recitation, "A Broken Heart," May Monahan; instrumental duet, Nellie Gordenko and Helen Wright; composition on animals, John Wright; dialogue, "Mother Goose's Party;" recitation, "Wreck of the Hesperus," F. Monahan; instrumental duet, "Zampa," Mrs. E. Willis and Miss J. Gautier; recitation, "Who Made the Speech? Emma Poppe; recitation, "Home Study," Pearl Allen; violin solo and piano accompaniment, H. Schieck and Miss J. Gautier; wand drill, five girls; parting song, school.

REMINGTON.

Glen Ellen, Nov. 28th, 1895.

The Nordin Suit Again.

There was an interesting argument in Judge Dougherty's court Monday afternoon. It was upon the motion of the attorneys, A. B. Ware and J. C. Sims, of J. A. Nordin to have striken out parts of the amended complaint filed by Mrs. Nordin a few days ago. In the amended complaint it was set up that John A. Nordin had a wife when he married Mary E. Nordin, hence the trensfer of all her property to him could not be made, so claimed her attorneys, for the consideration of love and affection. Nordin's attorneys objected to the plaintiff, after she had sworn in her complaint, that she had been married to Nordin, being allowed to come in in an amended complaint to show that no legal marriage had taken place between them, and they thought such matters should be stricken out because of inconsistency.

Geo. H. Maxwell and Attorney Sotto of San San Francisco argued very ingeniously that it should not be stricken out; that their was nothing inconsistent about it. They claim that there never was a legal divorce granted between Nordin and his first wife, Sophie Nelson, and that Judge Green's court in Alameda never obtained jurisdiction of the person of Sophie Nelson.—*Santa Rosa Republican.*

[Dr. Nordin was legally divorced from his first wife in Judge Green's court, Alameda, at least that is what the records show.—Ed. INDEX-TRIBUNE.]

Claude Johnson visited San Francisco relatives Sunday.

Miss Susie Shaw went to the metropolis one day this week.

The Cross Country Club and a number of invited guests made a trip to Agua Caliente last Sunday.

Watmaugh School closed this week for a vacation of several weeks.

Mr. and Mrs. Henry Bates were presented with a little daughter on the 25th inst.

Mrs. Dr. Davis, accompanied by her little daughter, visited the metropolis last Monday.

Cashmere shawls are so fine that one measuring three or four square yards could be stored within the shell of a small walnut. But an even more delicate fabric is manufactured on the Philippine islands from the fibers of pineapple leaves. To properly prepare the fibers for weaving involves much tedious work. For instance, the tiny fibers are tied together by hand to suitable lengths. The weaving of a quantity sufficient for one skirt is a labor of several years, and so it is no wonder that such a skirt costs about $1200; but the rich planters of Manila and Louzon—slave holders yet—can afford to indulge in such extravagances.

Mrs. Carrie Burlingame is visiting at the Appleton farm, the home of her parents.

George Dillon, foreman of the San Francisco *Bulletin*, was the guest of Mr. and Mrs. H. H. Granice last Sunday.

Alpacas still retain their popularity, and a French writer predicts that they will be worn during the fall and winter more than ever before.

Mrs. G. M. Perry, after a weeks' visit in the metropolis, returned home last Wednesday.

F. T. Duhring visited San Francisco last Tuesday.

An exchange remarks that a graphic idea of the immense size of Siberia may be gleaned from the following comparisons: All of the States, kingdoms, principalities, empires, etc., of Enrope (except Russia) and all of the United States, including Alaska, could be placed side by side in Siberia, and yet but little more than cover that immense country.

Mrs. Marie Chase returned to her home in San Francisco last Sunday.

Miss Mollie Enke visited the metropolis Sunday.

Wilted roses can be restored by placing the stems in hot water for a minute.

Rev. James Hulme has been appointed pastor of St. Andrews' Episcopal Church of Oakland.

Ex-State Treasurer J. R. McDonald of Grayson has been appointed a member of the committee to secure subscriptions to induce the Republican National Convention to be held in San Francisco.

One of the Milwaukee hotels uses a bushel of potatoes a year, one at a time, for pen wipers on the desk in the office.

Robert Wade of San Francisco attended the Y. M. I. ball last Wednesday night.

Bert Jones visited relatives in the Bay City on Monday last.

Isabel Mallon in the *Ladies' Home Journal*, says: "I should like to urge upon the general woman that she should go out more, keep up with her friends so to be in the current, mentally and socially, with every body else."

The grammar school closed last Wednesday for a vacation of two months.

Union Thanksgiving services were held in the Methodist Church and were well attended.

Mr. and Mrs. Newton Agnew (nee Cozine) returned Monday from their wedding tour. The young couple will reside for the present on the Agnew farm where they will be pleased to meet their friends.

Mr. and Mrs. J. T. Wells will accept the thanks of this office for a nice piece of wedding cake, also our thanks for future happiness.

The largest mammoth tusk yet discovered is sixteen feet in length.

Mrs. Kate Lang who resides near Glen Ellen was in town last Monday.

The Misses Pauli are the guests of their brother, A. F. Pauli, and family where they will remain for a few weeks.

Here is a remedy for burns, particularly valuable for those who have charge of children. The burned part is to be bathed with common essence of peppermint, such as one may procure at any druggist's for a few cents. Relief is almost immediate, but the bathing should be continued till the pain is over.

Miss Josie Mathews, formerly of this place, was recently married to Quill Tupper, son of of ex-County Treasurer Tupper. The young couple have gone to house keeping in Santa Rosa.

Julius Fochetti went to Petaluma one day this week on business connected with his feed mill.

Coffee stains on white goods should be washed in warm water before placing in suds.

Mrs. R. G. Steele, who has been the guest of her son, H. H. Granice, for the past two weeks, returned to her pretty home in Merced last Tuesday.

A quiet home wedding was celebrated at the residence of Mr. and Mrs. J. J. Law, near this place, last Tuesday, the contracting parties being Miss Lulu Law and Mr. J. T. Wells, a rising young attorney of Red Bluff. Rev. C. E. Chase, pastor of the Congregational Church, performed the ceremony in the presence of the family and a few intimate friends. Congratulations and a wedding dinner followed and the happy young couple then took the afternoon train for San Francisco. After visiting several different places of interest Mr. and Mrs. Wells will return to Red Bluff, their future home.

A mustard plaster made according to the following directions will not blister the most sensitive skin: Two teaspoonfuls of mustard, two teaspoonfuls of flour and two of ground ginger. Do not mix too dry. Place between two pieces of old muslin and apply. If it burns too much at first lay an extra piece of muslin between it and the skin; as the skin becomes accustomed to the heat take the extra piece of muslin away.

Through the kind donation of the Mervyn Hall by A. R. Harrison and the unceasing efforts of his amiable wife the W. P. R. of Glen Ellen was enabled to make its social of last Friday evening a decided success. A gathering of one hundred and fifty participated in the enjoyable pastimes and the following programme was rendered in a manner that pleased and entertained all present: Instrumental duet, Mrs. Willis and Mr. Atkins; vocal duet, Messrs. Hull and Hartman; instrumental duet, Miss M. Martens and Miss P. Allen; one act comedy, "A Romance at Home"; vocal solo, "It was a Dream," Miss Jones; recitation, "Ostler Joe," Miss G. Wright; two act comedy, "A Matrimonial Advertisement"; vocal duet, "What are the Wild Waves Saying," Miss Jones and Mr. Harrison. On the above occasion Master Roy Wright made his debut. Dancing and refreshments followed which made the affair a most enjoyable one.

Intense cold, as is well known, burns—if we may use the term—like heat. If a "drop" of air at a temperature of 180 degrees below zero were placed upon the hand, it would have the same effect as would the same quantity of molten steel.

SONOMA INDEX - TRIBUNE.

SONOMA, SATURDAY, NOV. 30, 1895.

TRAFFIC IN TANGIER.

It Is Large and Continuous and Apparently Conducted Under Difficulties.

The traffic in Tangier is large and continuous. There is no footpath proper, and the foot passenger has often to pick his way among heavily laden donkeys and camels. Sometimes he is jostled by Jews in dark blue jelabs and skullcaps, the distinctive badges of their race; sometimes his progress is stopped by a burly negro slave, all in white or faded yellow, bearing on his head a tray of bread from the public bakehouse; sometimes he is swept into a miry corner by half a dozen of the sultan's cavalry, whose richly caparisoned steeds, flowing robes, flintlocks or spears, make up altogether an imposing spectacle. Perhaps also he may find himself confronted by a huge packing case borne down the street on the back of a donkey and supported on each side by men of color, who alarm the neighborhood with shouts of "balak."

The most interesting sight in Tangier—at least, from an artistic point of view—is the sok, or large market place for country products. It lies immediately outside the wall in the upper part of the town and is approached through the old slave market, now converted into a shoeing forge. In the forenoon it is too crowded to be interesting, but in the afternoon, when business has somewhat slackened, scenes of varied interest may be observed.

Yonder is a water carrier, with large goatskin bag slung over his shoulder, attracting your attention with the tinkle of a bell to the refreshing draft he offers. Here is a gaunt Arab from the Riff mountains, bareheaded, blanket draped and flashing eyed, interviewing with fierce and threatening gestures an obdurate looking Jew, who is evidently demanding his pound of flesh. Near them is a country woman seated behind a small semicircle of milk jars. Her shriveled, wornout features can be discerned through the folds of her coarse haik, which she holds carelessly together with her left hand, while with her right she lifts the lid from one of the jars.—Good Words.

ANIMAL CURIOSITIES.

Tree Climbing Rabbits, Sheep Eating Parrots and Sheep That Love Snails.

It seems almost a stretch of the imagination to think of rabbits climbing trees. Yet in Australia many rabbits have somehow acquired the tree climbing habit, having been forced, on account of the persecutions of dogs and other animals, to drop burrowing and imitate squirrels. An Australian sent on to England recently the two front feet of a rabbit that had been killed on an acacia, three yards from the ground, and he wrote in his letter that this was not at all a remarkable thing, and he had often found them, or at least the traces of their claws, on the bark of trees four, five and six yards high.

For a parrot to eat sheep is another remarkable thing, and yet the kea of New Zealand has become a sheep eater, having changed to this article of food from a purely vegetable diet. The kea has proved a serious source of annoyance to the New Zealand herdsmen, and methods have been taken for the destruction of the species. These gay colored little birds will eat almost any kind of meat, but it is sheep that they prefer.

They have been known to kill as many as 200 in a single night and have done serious harm to the flocks. The tradition of the island is that at one time these parrots were unable to obtain their usual supply of vegetable food and that in desperation they invaded the "drying rooms" and ate whatever came to hand, finding sheep meat agreeable. In Iceland almost all the horses are fish eaters, for the reason that the grain is scarce there and fish is plentiful. In England sheep are known who delight in snails. The observation of this fact is not new; it dates back 150 years.

It is well known that a large number of insectivorous birds become grain eaters whenever they find that they cannot procure their ordinary diet of insects.—New York World.

KIDNEY.

E. W. JOY COMPANY—Gentlemen: I have suffered from kidney trouble for two or three years. I would have to get up in the night to void my urine from ten to fifteen times. My sleep was disturbed and I became very thin and nervous. No appetite; bowels constipated. I have taken two bottles and gained fifteen pounds. Sleep well. Have to get up about three times during night, and am very much better in every respect. Will continue to take your Vegetable Sarsaparilla, for believe it will entirely cure me.

$1800.00 GIVEN AWAY TO INVENTORS.

$150.00 every month given away to any one who applies through us for the most meritorious patent during the month preceding.
We secure the best patents for our clients, and the object of this offer is to encourage inventors to keep track of their bright ideas. At the same time we wish to impress upon the public the fact that

IT'S THE SIMPLE, TRIVIAL INVENTIONS THAT YIELD FORTUNES,

such as the "car-window" which can be easily slid up and down without breaking the passenger's back, "sauce-pan," "collar-button," "nut-lock," "bottle-stopper," and a thousand other little things that most any one can find a way of improving; and these simple inventions are the ones that bring largest returns to the author. Try to think of something to invent.

IT IS NOT SO HARD AS IT SEEMS.

Patents taken out through us receive special notice in the "National Recorder," published at Washington, D. C., which is the best newspaper published in America in the interests of inventors. We furnish a year's subscription to this journal, free of cost, to all our clients. We also advertise, free of cost, the invention each month which wins our $150 prize, and hundreds of thousands of copies of the "National Recorder," containing a sketch of the winner, and a description of his invention, will be scattered throughout the United States among capitalists and manufacturers, thus bringing to their attention the merits of the invention.

What Victoria Could Do.

As a matter of fact, our sovereigns have rarely taken any active part in politics since George III's time, but they could still do some very astonishing things if they chose. The queen could dismiss every Tommy Atkins in our army, from the commander in chief to the youngest drummer boy. She could disband the navy in the same way, and sell all our ships, stores and arsenals to the first customer that came along. Acting entirely on her own responsibility, she could declare war against any foreign country, or make a present to any foreign power of any part of the empire. She could make every man, woman and child in the country a peer of the realm, with the right, in the case of males who are of age, to a seat in the house of lords.

With a single word she could dismiss any government that happened to be in power, and could, it is believed, pardon and liberate all the criminals in our jails. These are a few of the things the queen could do if she liked, but it is not necessary to say that her majesty never acts in matters of state except on the advice of the government for the time being.—London Tit-Bits.

What She Would Do.

"Johnnie, dear," said his mother, who was trying to inculcate a lesson in industry, "what do you suppose mamma would do for you if you should come to her some day and tell her that you loved your studies?" "Lick me for telling a falsehood," said dear little Johnnie, with the frankness of youth.—Pittsburg Bulletin.

A Stride to Freedom.

"Which," asked the unsophisticated young person—"which is the proper side of a horse for a lady to sit on?"

"Both," responded the severe lady with the short hair and seal brown bloomers.—Cincinnati Enquirer.

Mrs. W. B. Meek, who resides at Campton ville, Cal., says her daughter was for several years troubled at times with cramps in the stomach, and would be in such agony that it was necessary to call a physician. Having read about Chamberlain's Colic, Cholera, and Diarrhœa Remedy she concluded to try it. She found that it always gave prompt relief. It was seldom necessary to give the second dose. "It has not only saved us lots of worry and time," she says, "but also doctor bills. It is my opinion that every family should have a bottle of this remedy in the house." For sale by all dealers.

Hitchcock, Columbus, Wash., says: Chamberlain's Cough Remedy sells well and is highly praised by all who use it." For sale by all dealers.

SEQUIN, TEXAS.
MESSRS. LIPPMAN BROS., Savannah, Ga.
GENTLEMEN:—I have tried your P. P. P. for a disease of the skin usually known as Skin Cancer, of thirty years standing, and found great relief; it purifies the blood and removes all irritation from the seat of the disease, and prevents any spreading of the sores.
I have taken five or six bottles and feel confident that another course would effect a cure.
It has also relieved me from indigestion and stomach trouble. Yours Truly.

PRICKLY ASH, POKE ROOT AND POTASSIUM
Makes Marvelous Cures in Blood Poison Rheumatism and Scrofula

P. P. P. purifies the blood, builds up the weak and debilitated, gives strength to weakened nerves, expels diseases, giving the patient health and happiness where sickness, gloomy feelings and lassitude first prevailed.

For primary, secondary and tertiary syphilis, for blood poisoning, mercurial poison, malaria, dyspepsia, and in all blood and skin diseases, like blotches, pimples, old chronic ulcers, tetter, scald head, boils, erysipelas, eczema—we may say, without fear of contradiction, that P. P. P. is the best blood purifier in the world, and makes positive, speedy and permanent cures in all cases.

Ladies whose systems are poisoned and whose blood is in an impure condition, due to menstrual irregularities, are peculiarly benefited by the wonderful tonic and blood cleansing properties of P. P. P.—Prickly Ash, Poke Root and Potassium.

SPRINGFIELD, Mo., Aug. 14th, 1893.—I can speak in the highest terms of your medicine from my own personal knowledge. I was affected with heart disease, pleurisy and rheumatism for 35 years, was treated by the very best physicians and spent hundreds of dollars, tried every known remedy without finding relief. I have only taken one bottle of your P. P. P., and can cheerfully say it has done me more good than anything I have ever taken. I can recommend your medicine to all sufferers of the above diseases.
